DETAILED ACTION

1. The amendment filed on 9/15/06 has been entered. Applicants have amended claims 1 and 12. Claims 19-20 are newly added. Claims 2-6, 13-16, and 18 are cancelled.

Claims 1, 7-12, 17, and 19-20 are treated on the merits in this Office Action.

Response to Arguments

2. Applicant's arguments, pages 6-8 and 10-12, filed on 9/15/06, with respect to claims 1 and 12 have been fully considered and are persuasive. The rejections of claims 1 and 12 have been withdrawn.

Allowable Subject Matter

3. Claims 1, 7-12, 17, and 19-20 are allowed.

Reasons for allowance

4. The following is a statement of reasons for the indication of allowable subject matter: The prior references art, Kimura et al. (US 6806428), Okabe et al. (US 6757178), taken alone or in combination, fails to teach or fairly suggest, at least on claims 1 and 12, a core layer having a plurality of openings filled with capacitive material and a plurality of conductive traces formed as a whole on both sides of the core layer and fully cover the capacitive material. Indeed, the prior references art disclose embedded chip capacitors, wherein each capacitor has electrodes formed thereon and electrically connected to predetermined conductive traces instead of conductive traces formed over the conductive material. Thus, the structure of the embedded capacitors of the prior references art is different from the embedded capacitors of the applicants.

Art Unit: 2841

Furthermore, none of the related art of record shows or suggests either alone or in combination such the structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
